

Past Conference Report on European Vaccines Congress

Geert Vanden Bossche

PhD, Managing Director, Faculty for Environmental Sanitation, University of Ghent, Belgium, E-mail: geert.vandenbossche@live.be

[Euro Vaccines 2019](#) witnessed a combination of peerless speakers who enlightened the crowd with their knowledge and confabulated on various new-fangled issues related to the field of [Vaccines](#) & [Vaccination](#). The extremely illustrious conference hosted by [EuroSciCon](#) was marked with the attendance of young and brilliant researchers, experienced professors, delegates and talented student communities representing their countries around the world.

The two days event implanted a firm relation of upcoming strategies in the field of [Vaccines](#) with the scientific community. The conceptual and valid knowledge shared, will also raise organizational collaborations to develop [scientific accelerations](#).

We once again thank all the [participants](#) for their wonderful involvement towards the event which helped us for the successful execution of this [event](#).

Vaccines Committee was delighted to welcome all the interested and enthusiastic participants across the globe to its prestigious '2nd European Congress on Vaccines R&D & Vaccination' which was held during **July 11-12, 2019** at **Prague, Czech Republic** which highlighted the theme "*Optimizing Vaccination Strategies for control and elimination of Immunizing Infections*". [Vaccines R&D-2019](#) was a two-day conference concentrating on Interactive Sessions & Sub-sessions emphasized on innovation and new trends on vaccines, keynote lectures from Senior Scientists and industry experts, panel discussions, poster competitions, and Young Researcher Forum. The conference program featured well-known and thought to provoke speakers in interactive discussion sessions, prompt keynote presentations, Oral talks, Poster presentations, and Exhibitions.

Why attend??

The [Vaccine R&D & Vaccination](#) conference interacted with members across the globe focused on learning about vaccines and its specialties. This was the single best opportunity which reached the largest participants. Sharing the knowledge and demonstrations, information and B2B meetings with industrialists and potential clients to make a splash with innovative products live and brand recognition at this event. World-renowned speakers, the most recent techniques, and the latest updates on vaccines were the hallmarks of this conference.

EuroSciCon is the longest running independent life science events company with a predominantly academic client base.
