

Conference Announcement on New Frontiers in Clinical Microbiology and Infectious Diseases

Kevin Coombs

Professor University of Manitoba Winnipeg, Manitoba, E-mail: kevin.coombs@umanitoba.ca

We are pleased to welcome you to the "11th International Conference on New Frontiers in Clinical Microbiology and Infectious Diseases" after the successful completion of the series of [microbiology](#) Congress. The congress is scheduled to take place in the beautiful city of Paris, France, on June 26-27, 2020. This euro clinical microbiology 2020 conference will provide you with an exemplary research experience and huge ideas.

[Clinical Microbiology](#) is a branch of medical science concerned with the prevention, diagnosis and treatment of infectious diseases. Moreover, this field of science is concerned about various clinical applications of microbes for the improvement of health.

[Clinical microbiology](#) focuses on the isolation and characterization of infectious organisms so they can be managed and treated in patients. ... To diagnose an infection, a sample must be collected from a patient at a body site where the detection of a pathogen or its associated biomarkers is likely to signify disease.

Clinical Microbiology 2020 is focusing on "Exploring Innovative Research in Clinical Microbiology" to develop and explore knowledge among the Microbiology community and to launch new businesses and swapping ideas. Providing the right stage to present thought-provoking Keynote talks, Plenary sessions, Discussion Panels, B2B Meetings, Poster symposia, Video Presentations, and Workshops. [Clinical Microbiology](#) 2020 foresees over 200 participants from 7 continents with revolutionary subjects, discussions, and expositions.

This will be a marvellous viability for the researchers, students and the delegates from Universities and Institutes to intermingle with the world-class Scientists, speakers, technicians and Microbiology Practitioners and Industry Professionals working in the field of [Microbiology](#) system. To enhance the field and make people aware of it.

We would like you to share, extend and impart your valuable thoughts to the global scientific event set to happen in London this year as we start to prepare the dais for a grand discussion.

The organizing committee decided to hold a conference. [Microbiology](#) is one of the fast growing and

developing areas of surgery.

People who have missed attending the past conference are most welcome to present your research ideas at the 2020 [microbiology](#) conference. This conference will help you improve networking with eminent people in the field of microbiology.
