

Past Conference Report

With the completion of the grand success of Drug discovery conference 2020 which have laid a stone and given us the prospect to bring the eminent people together that would make the conference huge success. "3rd World Conference on Pharmaceutical Research and Drug Management" hosted by conference series which was on December 21-22, 2020 | Webinar. The conference was focused on Pharmacology and Toxicology with the theme "Emerging New Trends and Findings in the field of Pharmacology and Toxicology". This strategic conference will provide in-depth presentations and interactive sessions, for the possibility to network with like-minded professionals and discuss how to overcome the current challenges in pharmaceutical product synthesis, Product and Drug development. That year it focused on the latest advancements, research and development to inspect the challenges in Pharmaceutical Sciences, Clinical Research and related areas. Drug Discovery 2020 is a specially designed cluster of all Pharma conferences. The main theme of this Pharma conference was "Emerging trends in development of vaccines for Covid 19" which covers a wide range of critically important sessions.

The gathering was set out with an initial function followed by Keynote meetings and followed by arrangement of talks conveyed by both Honourable Guests and individuals from the Keynote discussion. The adepts who promulgated the theme with their exquisite talk were: Edwin G Moore University of Illinois, Urbana USA, Oleg V Tcheremissine USA, Rohan Kulkarni BioReliance USA, Diana Anderson University of Bradford UK, Leon F. Stankowski Bio Reliance USA, Radwan AA Kayyali Chair Saudi Arabia.

At Drug Discovery 2020 meet your target audiences from around the world focused on learning about Pharma and Pharma regulations, licenses, approvals. This conference would be your single best opportunity to reach the largest assemblage of participants from the Pharma field.

2020 Highlights:

- 10+ Keynote Speakers
- 18+ Plenary Speakers
- 3+ Exhibitors
- 14 Innovative Educational Sessions
- 2+ Workshops
- B2B Meetings Toxicology

Drug Discovery 2020 will involve significant sessions intended to offer comprehensive sessions that address current issues in Pharmacology, Toxicology and relevant Adverse Drug Reactions. Motives to attend:

That year, many senior speakers, who joined us from pharmaceutical giants, who shared their experience with us and ensure you can maximize your knowledge. They joined us because they know how important it is to have your questions answered. In light of all that's happening in the Pharmaceutical industry, this year delivers more case studies for you to gain first-hand experience on developing your drugs, clinical trials, and we will be introducing think tank sessions to discuss and debate challenges in more details with key decision makers. These sessions will bring you constructive networking possibilities so you return to work with practical solutions for your challenges. Get ahead of the competition: Gather fresh intuitions from key speakers to help make restored decisions

on doing business in Pharma.

Meet and Connected with Senior Stakeholders from the global Pharma network. Content your way: Access a variety of technical and commercial tracks across the entire supply chain, or choose the one track that is most relevant to your business. Save months of research. It was a unique Opportunity for Advertisers and Sponsors at this International event.

- Triumph of Awards, Certificates recognizes your commitment to your profession to encourage the nascent research.
- Lectures from renowned speakers
- Keynote forums by Prominent Professors, Engineers
- Open Innovation Challenges
- Poster presentations by Young Researchers
- Global Networking sessions with 50+ Countries
- Novel techniques to benefit your research
- Best stage for Global business and Networking openings
- Fantastic stage to feature the most recent advancement and idea in the specialized field

Target Audience:

- Directors CEO's of Organizations
- Business Development Managers
- Chief Scientific Officers
- R&D Researchers from Pharma Industries
- Professors, Associate Professors, Assistant Professors
- PhD Scholars
- Patent Attorneys
- Investment Analysts
- Association, Association presidents and professionals
- Noble laureates in Health Care and Medicine
- Bio instruments Professionals
- Bio-informatics Professionals
- Software development companies
- Research Institutes and members
- Supply Chain companies
- Manufacturing Companies
- CRO and DATA management Companies
- Training Institutes

Young Scientist Benefits

- It has provided the best Platform for your research through oral presentations.
- It shared the ideas with both eminent researchers and mentors.

- Young Scientist Award reorganization certificate and memento to the winners
- Young Scientists got appropriate and timely information by this Forum.
- Platform for collaboration among young researchers for better development
- Award should motivate participants to strive to realize their full potential which could in turn be beneficial to the field as whole.

Pharmacology conferences offer a profitable chance to the scientists, researchers, students, and representative from industries, research agencies, government, NGOs, and reputed universities to further their medical education/ business/ research. It gave the best stage to the analysts and even to the scientists everywhere throughout the globe to acquaint themselves with the imaginative world with their one of a kind examination. We are happy to announce the “**4th World Conference on Pharmaceutical Research and Drug Management**” which is scheduled on **March 15-16, 2021**.

This conference got a huge response and good applause from the renewed speakers. Generous reaction and dynamic interest was gotten from the prestigious specialists and Editorial Board Members of Conference arrangement Journals just as from the Pharmacologist, Scientists, Researchers, Students and Leaders in Pharmacology and Toxicology, Which was successful.

The tracks are

- Corona Virus Drug Discovery
- Cancer Targeted Drug Delivery
- Pharmaceutical Science
- Drug Delivery and Design Development
- Cardiovascular Drug Delivery
- Environmental Toxicology
- Applied Pharmacology
- Biotoxins
