

## Past Conference Report on Biotechnology & Bioengineering

23rd Edition of EuroSciCon Conference on Biotechnology & Bioengineering organized by EuroSciCon Ltd was held at Holiday Inn Amsterdam, Arena Towers, Netherlands during March 04-05, 2019. Excellent response was received from the Editorial Board Members of EuroSciCon Ltd Journals and from the eminent scientists, researchers, and young student & researchers' community as well. Young researchers and students who attended from various parts of the world made the conference one of the most successful and productive events in 2019. The two-day program witnessed thought-provoking keynote and plenary presentations from experts in the area of Biotechnology & Bioengineering highlighting the theme, "Novel Trends and Advances in Biotechnology & Bioengineering".

The meeting was carried out through various sessions, in which the discussions were held on the following major scientific tracks:

- Microbial Biotechnology
- Genetic Engineering and rDNA Technology
- Medical Biotechnology
- Advancements In Biotechnology
- Nano biotechnology
- Pharmaceutical Biotechnology
- Bioengineering
- Bio products And Bioenergy
- Reproductive Biotechnology
- Plant and Agriculture Biotechnology
- Environmental Biotechnology
- Bioremediation and Biodegradation
- Biomass and Bioenergy
- Biotechnology and Bioprocess Engineering
- Chemistry & System Biology
- Biotechnology & Intellectual Property Rights
- Molecular Biology & Bio-Chemistry
- Cell & Gene Therapy
- Entrepreneurs Investment Meet
- Industrial Biotechnology

The highlights of the meeting formed the eminent keynote lectures from

Vasiliev Ilie, Moldova

Wim J. Quax, Netherlands

Numan Eczacioglu, Turkey

N. Thirumoorthy, India

Zeynep Elibol Cakmak, Turkey

Hitoshi Sohma, Japan.

BIOTECHNOLOGY & BIOENGINEERING 2019 played an important role in promoting multidisciplinary interactions between science and medicine to enhance research in Biotechnology. The program covered current and emerging research innovations in the field of Biotechnology & Bioengineering.

Our Attendees were privileged to get to know about the latest discoveries and ground breaking innovations in the biotechnological & bioengineering, and that their expertise in the field has been enhanced. They got an opportunity to interact with the eminent personalities of the field through networking, business to business networking was there to widen their circle of acquaintances and were able to share and gain knowledge about the latest and challenging approaches, technologies and field studies in the areas of biotechnology & bioengineering.

We would specially thank the Moderator of the conference Vasiliev Ilie, Moldova for his contribution to the conference.

We are obliged to the various delegates from companies and institutes who actively took part in the discussions. We sincerely thank the Organizing Committee Members and Editorial board of BIOTECHNOLOGY & BIOENGINEERING 2019 for their gracious presence and continuous support throughout the proceedings of this event. With the valuable feedback and generous response received from the participants of the event, EuroSciCon Ltd would like to announce the commencement of "EuroSciCon Conference on Biotechnology & Bioengineering" during May 06-07, 2020 at Stockholm, Sweden.

Biotechnology & Bioengineering 2020 aims to bring all the life science professionals together to interact and share their knowledge and their newest research to the entire life science streams.

Let us meet again @ Biotechnology & Bioengineering 2020

We are looking forward for the Biotechnology &

Bioengineering 2020 Congress to be successful just as the Biotechnology & Bioengineering 2019 Congress.
