

Past Conference Report

Kejlava Kristina

National Institute of Public Health, Czech Republic

The success of the Toxicology Congress 2014 has given us the prospect to bring the gathering one more time. Conference series hosted the "16th World Congress on Pharmacology and Toxicology" schedule on April 21-22, 2014 in Bangkok, Thailand." The conference was focused on Pharmacology and Toxicology with the theme "Emerging New Trends and Findings in the field of Pharmacology and Toxicology". The meeting engrossed a vicinity of comprehensive discussions on novel subjects like etc.

The Toxicology Congress 2014 is designed with the keynote sessions, session lectures, poster presentations, presentations from the young researchers, Panel Discussions, and the B2B meetings with world-renowned speakers from the stream of immunology. It gives the best stage to the analysts to the scientists everywhere throughout the globe to acquaint themselves with the imaginative world with their one of a kind examination.

The gathering was set out with an initial function followed by Keynote meetings and followed by arrangement of talks conveyed by both Honourable Guests and individuals from the Keynote discussion. The adepts who promulgated the theme with their exquisite talk were: Ofelia A Olivero National Cancer Institute USA, Kim Strifert University of Alabama at Birmingham USA, Rohan Kulkarni BioReliance USA, Diana Anderson University of Bradford UK, Marcelo L. Larramendy National University of La Plata Argentina, Leon F. Stankowski Bio Reliance USA.

All the above mentioned Honorable Guests and Keynote speakers gave their energetic and fruitful contributions. Pharmacology and Toxicology conference was a great success with the support of international, multi-professional steering committee.

Toxicology Congress 2020 will involve significant sessions intended to offer comprehensive sessions that address current issues in Pharmacology, Toxicology and relevant Adverse Drug Reactions. The participants can discover Exclusive Sessions and Panel discourses on most recent advancements in Pharmacology and Adverse Drug Reactions, Lectures by the dynamic Investigators, Keynote gatherings by Renowned Pharmacologist, Speaker Forum, Poster Sessions on most recent Innovation in all the pertinent Areas, Open Innovation Challenges, Poster Sessions on each vocation organize, Young Research Forum, Post-Doctoral Career Development Session, B2B Meetings, Global Systems administration with 50+ Countries, Novel techniques to benefit your investigation, Best stage for Global business and Networking openings, Meet the editors of refereed diaries, Society and Association people over the Globe, Excellent stage to display the latest things in Immunology and auxiliaries.

International Conference on Pharmacology and Toxicology is amid the World's leading technical Conferences. The two days event on Pharmacology and pharmacogenomics will host 60+ Scientific and technical sessions and sub-sessions on leading and latest research transformation related to the field, covering the globe. Toxicology Congress 2014 will comprise of 25 major sessions designed to offer comprehensive sessions that discourse current topics in the field.

The attendees can find exclusive sessions and panel discussions on the latest innovations in Pharmacology and pharmacogenomics by:

- Lectures from renowned speakers
- Keynote forums by Prominent Professors, Engineers
- Open Innovation Challenges
- Poster presentations by Young Researchers
- Global Networking sessions with 50+ Countries
- Novel techniques to benefit your research
- Best stage for Global business and Networking openings
- Meet the editors of refereed journals, Society and Association members across the Globe
- Fantastic stage to feature the most recent advancement and idea in the specialized field

Target Audience:

- Pharmacologist
- Toxicologist
- Physicians
- Paediatricians
- Pharmacology professionals
- Disease treatment doctors
- University Professors
- Various Societies and their members
- Institutes-Medical Schools Students
- Research Scholars
- Laboratory technicians
- Business Entrepreneurs
- Manufacturing Medical Devices Companies
- Companies producing vaccines, GMO's and Adverse drug reactions

Meeting arrangement offers its ardent thankfulness to Organizing Committee Members, apt of field, different outside specialists, organization agents and is obliged to other famous characters that joined with gathering arrangement and bolstered the meeting in each viewpoint, without which the gathering would not have been conceivable.

Your reply is our motivation; remembering this adage and being seen the victory of Toxicology Congress 2014, Conference arrangement might want to report the initiation of the "16th World Congress on Pharmacology and Toxicology" plan on April 20-21, 2014 in Bangkok, Thailand. We welcome all the eminent researchers, students and delegate participants to take part in this upcoming conference to witness invaluable scientific discussions and contribute to the future innovations in the fields of Allergy and Clinical Immunology.

Conference Series LLC Ltd hosted the "16th World Congress on Pharmacology and Toxicology" schedule on April 21-22, 2014 in Bangkok, Thailand" with the theme "Emerging new trends and findings in the field of Pharmacology and Toxicology".

Generous reaction and dynamic interest was gotten from the prestigious specialists and Editorial Board Members of Conference arrangement Journals just as from the Pharmacologist, Scientists,

Researchers, Students and Leaders in Pharmacology and Toxicology, who made this occasion fruitful.

The meeting was helped out through different useful and front line meetings, in which the conversations were hung on the accompanying interesting and cerebrating logical tracks:

- Organ System Toxicity
- Applied Toxicology
- Genetic Toxicology
- Toxicity Testing Market & Business Opportunities
- Environmental Toxicology
- Regulatory Toxicology
- Applied Pharmacology
- Biotoxins

Pharmacovigilance & Toxicologists Meeting The Toxicology Congress 2014, Pharmacology Conferences, hosting presentations from renowned experts across the field to encourage new collaborations in the field of Pharmacology, Adverse drug reactions, Anti-Inflammatory, Anti-arthritis and Anti-Tuberculosis. In this way, Researchers in their fields across the World can display their research topics and to talk about the new outcomes. Creating meetings consolidates, Young Research Forum and Poster meetings offering chance to all adolescent individuals to harness their calling in all the directions. These International meeting additionally facilitating introductions from Investigators at every work organize itemizing their latest exploration discoveries in oral and banner meetings. This leads to dissemination of current research across the World.

Pharmacology conferences offer a profitable chance to the scientists, researchers, students, and representative from industries, research agencies, government, NGOs, and reputed universities to further their medical education/ business/ research. These meetings in our list are basically important to researchers working in every aspect of Pharmacology and its branches.

The is designed with the keynote sessions, session lectures, and poster presentations, presentations from the young researchers, Panel Discussions, and the B2B meetings with world-renowned speakers from the stream of Pharmacology. It gives the best stage to the analysts to the scientists everywhere throughout the globe to acquaint themselves with the imaginative world with their one of a kind examination. We are happy to announce a “17th World Congress on Pharmacology and Toxicology”.
