Editorial note

Archivos de Medicina (1698-9465) is the first open access journal in Spanish, dedicated to all areas of medicine. It publishes all kind of articles like research, reviews, clinical cases, protocols, case blogs, editorial, opinion and short communication etc. It is a meeting place between basic and clinical researchers and a place for continuing medical training.

This journal was being handled by eminent editors and reviewers who were keeping up the journal in standard format. The editorial board make sure of following the ethical practices in publication of manuscript. All the manuscript which were submitted to this journal goes through double blinded peer review process. The acceptance rate of this journal is less than 50%.

The submitted manuscript will be published within 45 days. The manuscript has been reviewed by peer reviewers. Archivos de Medicina publishes articles in all disciplines like cardiology, haematology, neurology, nephrology, endocrinology, anatomy, clinical studies, immunology, paediatrics, gynaecology and virology etc. as far as now this journal successfully completed 15 volumes and releasing issues quarterly basis on every year.

We have a certain guidelines for authors in order to collaborate with us. The present manuscript should follow all the ethical practices like plagiarised fee, Nowhere to be published, consignment forms for study and publicatication ethics.

Archivos de Medicina is using Online Manuscript Submission System for manuscript submission, review and tracking. Editorial board members of the Journal of Pollution Effects & Control or outside experts complete the review process; a minimum of two independent reviewer's approval followed by the editor is required for the acceptance of any citable manuscript.

Journal is using Online Review and Editorial Tracking Systems for quality review process. Online Review and Editorial Tracking System is a web submission and review system, where authors can submit manuscripts and track their progress. Reviewers can download manuscripts and submit their opinions. Editors can manage the entire submission/review/revise/publish process. Publishers can see what manuscripts are within the pipeline awaiting publication. E-mail is shipped automatically to concerned persons when significant events occur.

Archivos de Medicina is inviting all the academicians to use this platform to publish their qualitative and quantitative research work.
